***LAW OFFICE COMPUTING* Announces Results of the
11th Annual Readers' Choice Awards**

Winners and finalists represent law firms' top technology choices in 14 categories.

COSTA MESA, Calif. — The editors of *LAW OFFICE COMPUTING* today announced the winners and finalists of the 11th annual Readers' Choice Awards. The winners and finalists represent the most used software in the legal technology field today, according to *LOC* readers.

The magazine started the awards to honor the exceptional software manufacturers and service providers that have contributed to the technological advancement in the legal industry and to provide a valuable resource for firms looking to buy quality software. The Readers' Choice Awards allow readers to find out what solutions their peers are using in their law practices.

"This year's winners and finalists represent the most widely used and most trusted products available for legal professionals and law firms today," said Amanda Flatten, *LOC*'s editor and publisher. "We congratulate all of the award winners and finalists on their high standing in the legal community and their commitment to excellence."

In the spring of 2005, *LOC* surveyed 2,000 randomly selected paying subscribers. Readers were asked what technology their firms used most in 14 categories. The published results are based on an 11.9 percent response rate. For complete details, please see the August/September 2005 issue of *LOC*. For subscription information, call (800) 394-2626 or e-mail customer-service@jamespublishing.com. To purchase the August/September 2005 issue featuring the Readers' Choice Awards, contact Barbara Pearson at (714) 755-5450.

About *LAW OFFICE COMPUTING*

LAW OFFICE COMPUTING is a bimonthly publication that offers the most reliable source of critical advice in the field of legal computing. *LOC*'s mission is to provide readers unbiased, independent reviews, news and features to aid them in technology decisions.
